

M-113-A2 Armored Personnel Carrier

Adopted by Pete Saldana & Dan Spranger

The M-113-A2 armored personnel carrier is a lightly armored full-tracked air-transportable personnel carrier designed to carry personnel and certain types of cargo. The M-113 was able to carry 11 soldiers plus a driver and track commander under armor protection across hostile battlefield environments. The M-113 family was developed by the Food Machinery Corporation in the late 1950s. The vehicle is capable of amphibious operations, extended cross-country travel over rough terrain, and high-speed operations on improved roads and highways.
